

IT Policy

Equipment Usage

Company laptops and devices are provided for business use. Employees are responsible for the security and proper care of assigned equipment.

Password Policy

All employees must use passwords of at least 12 characters, including uppercase, lowercase, numbers, and symbols. Passwords must be changed every 90 days.

Software Installation

Employees may not install unauthorized software on company devices. All software requests must go through the IT Helpdesk ticketing system.

Remote Access

Remote access to company systems requires VPN connection and multi-factor authentication (MFA) at all times.

Data Backup

Employees must save all work files to the company's cloud storage (OneDrive) to ensure automatic backup. Local-only storage is not permitted for business-critical files.
